Work Experience

Student Video Assistant— B1G+

Oct 2025 – Present

- Crew and produce live collegiate sports broadcasts for Big Ten Plus across multiple Ohio State athletic venues.
 - Assist with setup and teardown of professional video production equipment for live events.
 - Operate broadcast equipment during live streams, including game cameras, replay systems, graphics production, technical directing, and show producing.
 - Support directing and overall production flow through real-time communication with camera operators, replay, graphics, and control room staff.
 - Work in fast-paced, team-based broadcast environments requiring constant coordination and on-the-fly problem solving.
 - Independently support productions as assigned, including events outside the control room at the Covelli Center.
 - Rotate through and train in multiple production roles, gaining hands-on experience across the full live broadcast workflow.
-

Digital Media Intern – Ohio State Athletics

Aug 2025 – Present

- Update and maintain the official Ohio State Athletics website during active game days.
 - Build and publish photo galleries highlighting key plays, athletes, and fan engagement.
 - Assist with real-time digital updates: score posts, thumbnails, headlines, and graphics.
 - Create social-ready visuals that follow OSU brand guidelines.
 - Collaborate with photographers, videographers, and communications staff.
 - Help organize and maintain digital media archives.
-

Photography Contributor – MaxPreps

Jun 2023 – Present

- Photograph high-school sporting events across Ohio, capturing action and storytelling moments.
- Deliver high-quality edited galleries using Photo Mechanic and Lightroom.

- Maintain consistent style and accuracy following MaxPreps national photography standards.
- Coordinate with school staff to ensure full coverage of games and athletes.

Software Engineer – Grange Insurance

Jun 2024 – July 2025

- Develop and maintain internal software tools to improve workflow automation.
- Write clean, scalable code and perform debugging, testing, and documentation.
- Collaborate with cross-functional teams to build features that match business needs.
- Support feature releases, updates, and long-term application stability.
- Implement REST APIs and backend services to streamline internal data processes.
- Use Git, branching workflows, and code reviews for structured team development.
- Optimize performance by identifying bottlenecks and improving load times.
- Assist in planning and designing internal tools used by non-technical departments.

Stocker – Walmart

Mar 2022 – Jun 2024

- Restocked merchandise and maintained organized, customer-friendly displays.
- Assisted customers with locating products and navigating the store.
- Processed and verified incoming shipments to maintain accurate inventory.

Cashier – Kroger

Jan 2021 – Feb 2022

- Handled customer transactions accurately using POS systems.
- Managed refunds, returns, and customer service inquiries.
- Helped maintain fast checkout lines and a positive shopping experience.
